# Khatai Alizade

Full-Stack / Backend Developer

Warsaw, Poland | xataializade01@gmail.com | +48 505 311 907
linkedin.com/in/khatai-alizade-857235242 | github.com/KhataiAlizade

## PROFILE

Backend-focused full-stack developer building REST APIs and relational, database-driven systems with Java, Spring Boot, and PostgreSQL, with React/TypeScript frontend experience. Computer Engineering graduate of Vistula University, now in the Master's program, with two full-stack internships (including 792 hours building and deploying a web application to the cloud) and shift-management experience. Seeking a full-time Junior Backend or Full-Stack Developer role in Warsaw.

*Eligible to work in Poland without a work permit or employer sponsorship (graduate of a Polish university, current Master's student). Residence permit renewal filed 19 Sept 2026; documents available on request.*

## TECHNICAL SKILLS

**Languages:** Java 17, TypeScript, JavaScript (ES6+), SQL
**Backend:** Spring Boot, Spring Security, Spring Data JPA, Hibernate, REST APIs, JWT
**Frontend:** React, Tailwind CSS, HTML5, CSS3
**Database:** PostgreSQL, Redis, H2; indexing, query optimization (EXPLAIN), stored procedures, triggers
**Testing & Tools:** JUnit 5, Mockito, Git/GitHub, Maven, Docker, cloud deployment, Postman, IntelliJ IDEA

## WORK EXPERIENCE

**Full-Stack Developer Intern** — EVERY ON sp. z o.o., Kalisz, Poland *08/2025 – 02/2026 · 792 hours*

*Service management platform for a cleaning company (homes and offices) · Stack: Java, Spring Boot, React.js, SQL, Redis, Google Maps API, SendGrid*

- Designed and built a full-stack platform (Java Spring Boot, React.js) end to end: ER modeling and relational schema, REST APIs, client portal and admin dashboard, cloud deployment and post-launch support
- Secured the app with JWT authentication, input sanitization and parameterized queries; added transaction locks to prevent double-booking
- Optimized queries with indexes, EXPLAIN tuning and Redis caching; wrote stored procedures and triggers automating job status and alerts
- Migrated the database to a managed cloud SQL instance, deployed the application, and configured automated daily backups
- Integrated Google Maps API and SendGrid; wrote unit and E2E tests; joined sprint planning and peer code reviews with senior developers

**Software Developer Intern** — Onfuture *02/2023 – 06/2023*

- Assisted in full-stack development of e-commerce platforms (TexnoPlus, Onfuture.eu): built the React.js frontend and integrated REST APIs
- Built responsive HTML5/CSS3 layouts, fixed frontend bugs and UI inconsistencies during testing, and used Git/GitHub for version control

## TECHNICAL PROJECTS

**Electronic Trading Platform – Matching Engine** *04/2026 – 05/2026*
github.com/KhataiAlizade/electronic-trading-engine

- Built a Java/Spring Boot trading API implementing price-time priority matching and order-book aggregation
- Implemented concurrent order processing with Hibernate optimistic locking to prevent conflicting updates
- Developed REST endpoints with JPA/Hibernate and PostgreSQL, validated with 10 tests (6 unit, 4 integration)

**Full-Stack HR Management System (HRMS)** *05/2026 – 06/2026*
*Live demo:* human-resources-pye8.vercel.app · github.com/KhataiAlizade/HumanResources

- Designed and built a full-stack app (React, TypeScript, Tailwind) with JWT authentication and role-based access control (Admin, Employee)
- Built automated modules for skill-based project assignment, leave approval workflows, and payroll calculation
- Wrote 50 backend unit tests (JUnit 5, Mockito) covering employee management, authentication, and JWT logic

**Warehouse Management System** *06/2026 – 07/2026*
github.com/KhataiAlizade/WareHouseManagement

- Java/Spring Boot and PostgreSQL desktop app for inventory: role-based dashboards, live stock tracking, low-stock alerts, printable bills

## ADDITIONAL EXPERIENCE

**Team Member** — KFC, Warsaw, Poland *01/2025 – Present*

- Maintained service and operational standards in a fast-paced team during busy shifts, while balancing work with university studies

**Manager** — McDonald's, Warsaw, Poland *04/2024 – 01/2025*

- Managed shifts and coordinated crew during peak hours, handling customer issues and keeping food-safety and service standards on target

## EDUCATION

**Master of Computer Engineering** — Vistula University, Warsaw *10/2026 – 09/2028*
**Bachelor of Computer Engineering** — Vistula University, Warsaw *02/2023 – 09/2026*

## CERTIFICATIONS

**Udemy:** Spring Boot Developer; Advanced SQL & PostgreSQL; Docker & Kubernetes · **HackerRank:** Frontend (React); Software Engineer; Java (Basic)

## LANGUAGES

**English:** Full Professional · **Azerbaijani:** Native · **Turkish:** Native · **Polish:** B1 (intermediate)

*I consent to the processing of my personal data for the purposes of the recruitment process, in accordance with Regulation (EU) 2016/679 (GDPR).*
